We are excited about this next step and will share more details with you very soon!

Did you know?

Our pool is kept at a warm 32°C all year round!

Because the water is warmer than the surrounding air (22–25°C), swimmers might feel a bit chilly when they step out.

To keep your little one cosy, we recommend having a towel ready immediately, followed by a tracksuit and slippers for a warm trip home!

Students & Teachers!

At the Aquatic Academy, we love celebrating the incredible journeys of both our dedicated staff and inspiring students. **Julia**, one of our committed teachers, has been a vital part of the Aquatic Academy team for nearly three years, bringing with her a wealth of teaching experience from various swim facilities. Julia has a passion for adult learn to swim, finding immense joy in helping grown ups conquer their fears, build confidence, and smash their personal aquatic goals.

That dedicated guidance is exactly what makes our center the perfect fit for students like **Meghana**. She is completely new to swimming and just recently completed her third lesson! Motivated by her daughter, who is also learning to swim, Meghana wanted to share this life changing skill with her family. She is absolutely loving the experience so far, and with an experienced teacher like Julia by her side, she is well on her way to becoming a confident swimmer.
