

2026 Swimming NSW Youth Leadership Group – Celina Taleb:

Congratulations to Celina Taleb who has been selected into the Swimming NSW Youth Leadership Group.

The Swimming NSW Youth Leadership Group (YLG) exists to provide young people with a genuine voice in the decisions that shape their sport. The YLG offers valuable insight, feedback, and perspective on the challenges and opportunities affecting youth in swimming, particularly those aged 15–19.

Beyond providing a platform for youth voice, the YLG is also designed to develop its members as emerging leaders. Through participation, members gain experience in collaboration, communication, and advocacy while learning how organisational decisions are made and how to influence positive change. They have opportunities to connect with senior leaders, contribute to meaningful projects, and build the confidence and skills needed to take on leadership roles both within and beyond swimming.

While the YLG does not hold formal decision-making powers, it represents a critical opportunity to engage with young participants and help shape the future of our sport.

Congratulations Celina!
